JOB OBJECTIVE

I am an individual driven by a thirst for knowledge and a desire to make a meaningful impact in the field of software engineering especially in web development. I am seeking opportunities to collaborate with talented professionals and contribute to cutting-edge projects. If you're interested in connecting or discussing potential collaborations, please feel free to reach out

CORE COMPETENCIES

- Web development
- Data Structures & Algorithms
- Database Management System

TECHNICAL SKILLS

- **Languages:** C++, Python
- **Front-end Development:** Angular, HTML, CSS, JavaScript, React.js
- **Database:** MySQL, Firebase, SQL
- **Software/Tools:** Git, VSCode

ACADEMIC DETAILS

- **2022:** B.E in **Computer Engineering** from Pimpri Chinchwad Education Trust's (PCET's) PCCOE with **9.89 CGPA**
- **2018:** **HSC** from Warana Mahavidyalaya, Warananagar with **88.15%**

ACHIEVEMENTS

- HackMed UK Hackathon - Third Prize and Best Accessibility Hack as Bionics Hack Winner
<https://devpost.com/software/two-way-sign-language-translate>
- Paper Presentation – First Prize in paper presentation at TKIET's Edureka event.
https://drive.google.com/file/d/1hFY_oZzVhQFnpcesR_CmoRy5GIqdQwNT/view?usp=sharing

CERTIFICATIONS & PATENTS

- **Oracle Database SQL Certified Associate- Oracle**
- **Patent on IoT based Portable Health Monitoring System using Edge Computing**
Intellectual Property Right (Application No. 202221028427)

PROFILE SUMMARY

- **Offering 1.5 years of experience in field of web development.**
- Passionate and highly skilled Software Engineer with a strong foundation in web development with keen interest in it
- **A quick learner adept at mastering new technologies:** Capable of working in team as well as individual learner.
- **LinkedIn:** <https://www.linkedin.com/in/shrishailkumbhar/>
- **LeetCode:** https://leetcode.com/Shrishail_735/
-

WORK EXPERIENCE

LTIMindtree | Software Engineer Jul'22 – Present

- I approach challenges with a problem-solving mind set, leveraging my technical knowledge to identify root causes and implement sustainable solutions. Whether it's optimizing database performance or writing complex SQL queries.
- In these internal projects, I've honed my skills in creating sleek and intuitive user interfaces that enhance user experiences. My responsibilities have included designing and implementing user interfaces, optimizing performance, and ensuring seamless interactions. I thrive on the challenge of transforming complex requirements into elegant, functional solutions.
- Skills Used: HTML, Angular, CSS, SQL, PL/SQL, JavaScript.

Raja Software Labs | Web Development Intern Dec'21 - May'22

- As a key contributor to the project, I played a crucial role in ensuring a seamless transition of LinkedIn pages, enhancing user experiences, and optimizing performance. Working with Ember.js allowed me to create dynamic, feature-rich web applications that met the project's complex requirements while maintaining an intuitive and engaging user interface.
- Skills used: HTML, CSS, JavaScript, EmberJs.

PROJECTS DEVELOPED

Ayurveda

- Recent Project under development as a part of Freelancer.
- This is a business site for Shree Vishwaviyaya Ayurvedic clinic center.
- Building this Website using Angular, Tailwind CSS.
- <https://ayurveda-c0b70.firebaseio.com/>

Shopping Website

- Developed E-commerce shopping website to understand various aspects of web development using Angular framework.
- Used Angular to build front-end which is connected to backend (MYSQL) using spring boot
- https://github.com/shrishail735/Ecommerce_Angular/tree/master

Researcher

- I've crafted a web-based research paper discovery tool using Python and Flask, skillfully integrating SMTP email capabilities.
- This project was born out of a hackathon challenge, where I proudly secured the 29th position among over 500 talented participants, earning a spot in the finals.
